

Fishing

On February 17, 2014 the Board of Directors adopted the following:
“Fishing in the Arbor Chase ponds is to be done using the practice of “Catch and Release”. This means that once a fish is caught, remove the hook immediately and return the fish into the water. Under no circumstances are any fish to be taken for the purpose of eating them.”

Although we residents refer to our bodies of water as ponds or lakes, they are in fact retention basins having the purpose of collecting runoff water that may be contaminated.
